PRODUCT APPLICATIONS

OceanFiber's Story

Ocean Chemical Fiber International (Thailand) Co., Ltd. was established in Thailand on March 16, 2018, backed by a team of experienced professionals with extensive expertise in plastic waste processing and material transformation.

Our journey began with a vision from one of our founders, who recognized the growing importance of sustainability and believed that discarded materials could be given new value. Driven by this passion, we continued to explore the potential of material recovery and transformation, leading to the establishment of our manufacturing facility in Thailand.

VIEW OF OUR FACTORY

We specialize in non-conjugated polyester staple fibers available in a wide range of specifications. Our product portfolio includes solid and hollow fibers, with both siliconized and non-siliconized options, available from 1.5D to 25D.

Our primary colors are white and brown, with additional color options available to meet different application and production requirements.

Our Standard

ISO 9001:2015

ISO 14001:2015

OEKO-TEX Standard100

Scope Certificate

Our certifications reflect our commitment to responsible manufacturing, consistent quality, and internationally recognized standards. They support the way we manage our processes, materials, and products to meet the expectations of our customers and global markets.

Our Specification

Polyester Staple Fiber

We primarily produce non-conjugated fibers, offering a variety of specifications.

Our range includes solid and hollow fibers, both siliconized and non-siliconized, with thicknesses ranging from 1.5D to 25D.

While we can produce fibers in various colors, our main products are white and brown.

Different Different

Hollow Fiber

Lightweight · High
Loft · Soft · Resilient

Our hollow polyester staple fiber features a hollow-core structure that helps retain air within the fiber, creating greater volume with a lightweight and soft feel. It is available in both siliconized and non-siliconized options for a variety of filling applications.

QUILTS · PILLOWS · MATTRESSES · SOFAS · TOYS · FILLING MATERIALS

structures possibilities

Solid Fiber

Reliable Structure ·
Versatile
Performance

Our solid polyester staple fiber features a fully solid cross-section, providing consistent structure and reliable performance. Available in different specifications and finishes, it can be used across a variety of nonwovens, padding, geotextile, and industrial applications.

**NONWOVENS · PADDING · GEOTEXTILES · HOME TEXTILES · INDUSTRIAL
MATERIALS**

Main Product

White Siliconized

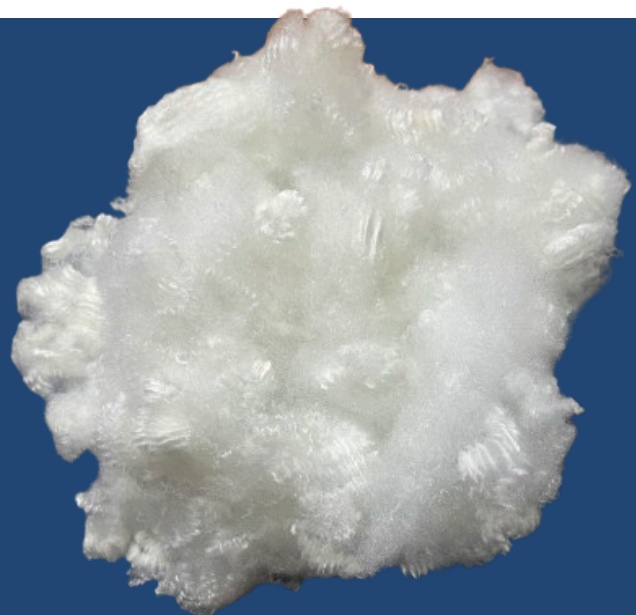

Spec: 2D/7D × 51mm

USE: Filling, Wadding, Padding

White Non-Siliconized

Spec: 2D/6D/15D × 51mm/64mm

USE: Filling, Wadding, Padding, Non-woven

Brown Siliconized

Spec: 7D/15D × 51mm

USE: Stuffing for sofa, cushions, toys, etc.

Main Product

Black Solid

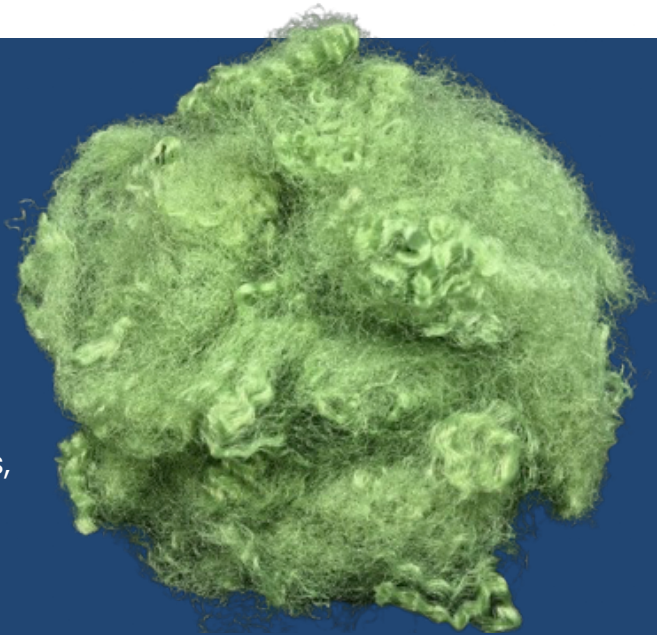

Spec: 3D/6D × 64mm

USE: Non-woven.

Green Hollow Siliconized

Spec: 15D × 51mm HS

USE: Stuffing for sofa, cushions, toys, etc.

Yellow Fiber

Spec: 15D × 51mm

USE: Stuffing for sofa, cushions, toys, etc.

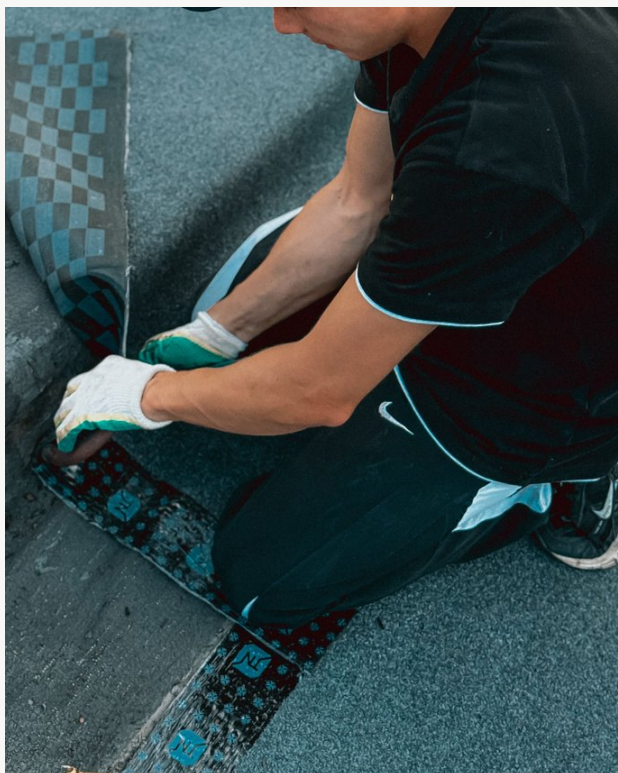

In Different Colors

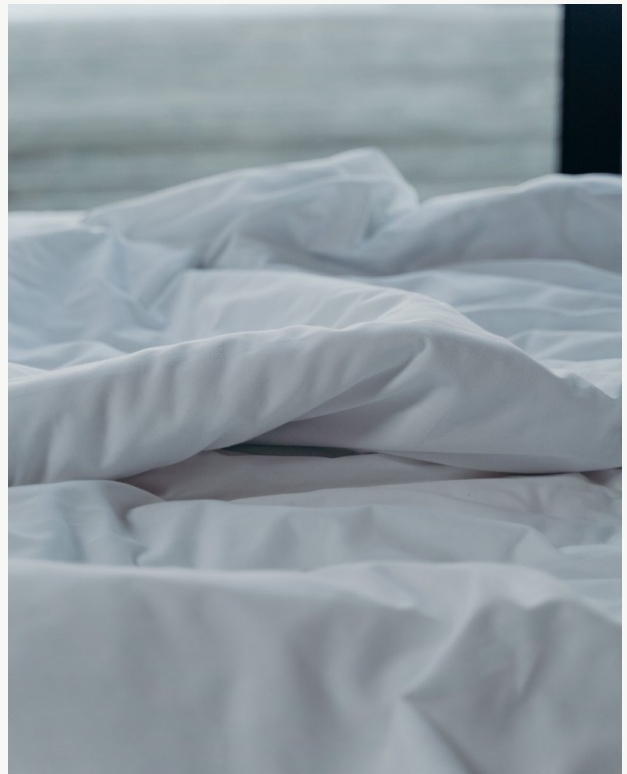

Spec: 2.5~25D × 25~150mm

USE: Geotextile · Non-woven · Filling ·
Rigid Cotton · Insulation Material

Product Applications

Geo Textile · Non-Woven · Car Ceiling · Automotive interior
· Carpet · Felt board · Padding · Industrial material

Quilt · Silk-Like Quilt · Pillow · Cushion · Cervical Pillow
· Waist Pillow · Futon · Mattress · Protective Pad · Soft Bed

Product Applications

Product Applications

Stuffed Toy · Needle-punch non-woven · Clothes · Down Jackets
· Cotton Jackets · Padded garments · Filling materials
